Profile

Computer Engineering graduate with expertise in modern web technologies and augmented reality. Strong foundation in Object-Oriented Programming, Databases, Operating Systems, and Computer Networks.

Education

Rajarambapu Institute of Technology, Uran Islampur

Bachelor of Technology (B.Tech) in Computer Engineering

2020 – 2024

Maharashtra, India

Technical Skills

- **Languages:** JavaScript (ES6+), SQL, C#, HTML5, CSS3
- **Web Frameworks:** ReactJS, TailwindCSS, Three.js
- **AR & 3D Development:** Unity3D, Augmented Reality Frameworks
- **Database & Tools:** PostgreSQL, Git, GitHub, VS Code

Experience

MiDas Health Services

System Implementation

Sept 2024 – Present

Nepal

- Collaborating with the developer team to identify system issues and resolve critical bugs.
- Executing system implementation workflows and ensuring seamless software integration.

Cymax Infotainment Pvt Ltd

AR Mobile App Developer (Internship)

Jan 2024 – May 2024

Hyderabad, India

- Developed and optimized Augmented Reality (AR) mobile applications for immersive experiences.
- Conducted debugging and performance testing across multiple mobile platforms.

Projects

Labro – Laboratory Management System

React, TailwindCSS, PostgreSQL

- Developed a prototype to streamline lab workflows, sample tracking, and report viewing.
- Designed modular UI components and a scalable architecture for efficient data listing.

Hotel Menu AR Web Application

Three.js, JavaScript, WebXR

- Created an AR-based web app using Three.js (Hit Test) for interactive dining experiences.
- Enabled customers to visualize 3D models of dishes in their real-world environment.

Gym Membership Management System

C#, .NET, SQL Server

- Engineered a desktop app for membership sales, inventory, and financial monitoring.
- Implemented automated profit/loss calculation and expense tracking features.

Additional Information

- **Languages:** English (Fluent), Nepali (Native)
- **Interests:** Mixed Reality, UI/UX Design, Open Source Contribution
